Welcome to Middlesex Community College!

Middlesex Community College has graduated more than 12,000 people since 1971, and during the past two decades, has grown from a single building in Bedford to a major, two-campus institution of higher education located in Lowell and Bedford.

Today, Middlesex offers 71 programs of study in the fields of science and technology, business, health, human services, office administration and liberal arts. A choice of academic and career-specific programs can prepare students either for transfer to further higher education, or for a particular area of employment. Fifty-five percent of students attend part-time, and range in age from 18 to 64.

The college is committed to educational opportunity and instructional excellence. Faculty, advisors, counselors and other professional staff are actively involved in support systems that give students the confidence and study skills needed for academic progress.

Web Publishing Certificate

The Web Publishing certificate program prepares students to design, develop and publish Internet or intranet websites for individuals, departments, small businesses, or nonprofit organizations. The program provides a core of Web publishing and design courses and a choice of electives that enable students to emphasize particular skills. The program also includes a capstone course in which students work in teams to complete projects similar to those found in the workplace. This certificate program is designed for individuals with basic computer literacy skills (word processing, file management) and familiarity with the internet (Web searching, e-mail, etc.)
