Milestone Courses

should be taken in the order shown. This will help you stay on track and graduate on time.

Make Your Summer Matter.

Summer is a great time to take some elective courses and get ahead.

Helpful Hints

- Students need to begin their math sequence in the first semester; otherwise they will not be eligible for Physics I in semester 3.
- PHY 171 requires completion of, or concurrent enrollment in, Calculus I.
- PHY 172 requires completion of, or concurrent enrollment in, Calculus II.

Career and Transfer Outlook

Most students in the Chemistry Transfer program continue their studies toward a bachelor's degree. Students may pursue various careers in chemistry, physics, environmental sciences, teaching or engineering.

This is a great time to meet with your Career & Transfer Advisor to learn what your next steps are.
