General Advising Notes

- This program is only offered during the day on the Lowell campus.
- MLT 151 and MLT 152 are offered in eightweek modules in the spring semester.
- It is recommended that students complete the General Education Electives of the program prior to applying for admission due to the heavy course load.
- Additional coursework may be required based on college placement testing.

Career and Transfer Outlook

The continued growth of the clinical laboratory science profession is producing an increased demand for educated and motivated laboratory professionals.
