**Milestone Courses**

should be taken in the order shown. This will help you stay on track and graduate on time.

**Make Your Summer Matter.**

Summer is a great time to take some Gen Ed courses and get ahead.

General Advising Notes

- This program is a day program on the Lowell Campus. It starts in the Fall Semester only.
- To be successful in this program, students should be able to work with small hand-tools on various dental materials with precision and accuracy.
- The Dental Laboratory Technology program is a full-time program. Students should consider limiting working hours so as not to interfere with successful completion of course objectives and program competencies.
- There is an extensive laboratory component, which requires 1,000 hours. Students should consider this when planning their schedules.

Career and Transfer Outlook

Students find career opportunities in dental laboratories, dental schools and dental offices throughout New England. Most general education credits transfer to other colleges.
