Campus Contacts

Following the recommendations from Public Health Officials and State Leadership, MCC has made the decision to limit in-person instruction and services. This is effective immediately through at least April 5.

MCC is committed to helping students on their path to academic and personal success. The work of caring for and educating our students will be uninterrupted.

For questions about MCC resources and services, please e-mail the correct office below. Most offices will be available for remote communication starting March 19.
