Immunization Requirement
Massachusetts General Law (Chapter 76, Section 15C) requires that full-time students (those enrolled in 12 or more credit hours) and ALL students (both full and part-time) in the Health Careers Division, submit records of immunization for measles, mumps, rubella, tetanus, diphtheria and Hepatitis B (three-dose vaccine series) in order to attend classes at any public or private college in Massachusetts. All records should be submitted to MCC Health Services at either campus prior to registration for classes. Failure to provide up-to-date and completed records may result in:
1. Semester final grades being withheld until records are completed.
2. Delay of student’s registration for the following semester.
3. Delay processing transcripts of grades to be sent to other colleges.
Any “health holds” on student accounts will not be removed until completed records are provided to MCC Health Services. For further information, contact the Health Service Office: 781-280-3765 (Bedford) or 978-656-3235 (Lowell).
