Middlesex Community College - Diversity Coordinating Council
Annual Theme Response Form

The Diversity Coordinating Council (DCC) is composed of MCC faculty, staff, administrators, and students whose purpose is to foster an environment that recognizes and values differences. We are collecting your written response to the question, What are you? Please take a few moments or longer to write a line or two, up to one page, of your response to the question.

What are you?

Each of us individually contributes to our Middlesex community. The strength of our College's success is rooted in the richness of our unique identities. If you were asked the question, ***"What are you?"*** *How would you respond? How do you think others would interpret and respond to your answer? This year, we are asking you to consider the question, "What are you?" to begin the exploration process of what makes our community strong and how each of us can work toward a more inclusive environment in which we develop a better understanding of our humanity.*
