2016 ANNUAL REPORT*

Since it was founded in 1970, Middlesex Community College has focused on the future of education. Today, it is one of the largest community colleges in Massachusetts, with a 200-acre campus in Bedford and a vibrant campus in the heart of downtown Lowell.

The Middlesex Community College Foundation was created to ensure that MCC maintains its position as a recognized educational leader, as well as an innovative community partner, a provider of creative international initiatives, and an agent for regional economic growth and workforce development.

The work of the MCC Foundation would not be possible without the help of committed individuals, dedicated community partners and forward-thinking corporations who believe in the college and its mission. We welcome your participation in helping to strengthen the Middlesex college community.
