Supporting Many Paths to Success

Calling all STEM & Health Students

Field trip to:

Friday, January 17, 2014 @

Departing at 11:00am, City Building, LC

“What is BODY WORLDS?

BODY WORLDS exhibition contains real human specimens, including whole-body plastinates as well as individual organs, organ configurations, and transparent body slices. The spectacular plastinates in the exhibition take the visitor on an exciting journey of discovery under the skin. It provides wide-ranging insight into the anatomy and physiology of the human body.”
