

MIDDLESEX COMMUNITY COLLEGE, 2013
OPTION E1: PART A. INVENTORY OF EDUCATIONAL EFFECTIVENESS INDICATORS

CATEGORY	(1) Have formal learning outcomes been developed?	(2) Where are these learning outcomes published? (please specify) Include URLs where appropriate.	(3) Other than GPA, what data/evidence is used to determine that graduates have achieved the stated outcomes for the degree? (e.g., capstone course, portfolio review, licensure examination)	(4) Who interprets the evidence? What is the process? (e.g. annually by the curriculum committee)	(5) What changes have been made as a result of using the data/evidence?	(6) Date of most recent program review (for general education and each degree program)
At the institutional level:	yes	<p>On the MCC website: http://www.middlesex.mass.edu/strategicplanning/islo.aspx</p> <p>In the MCC Catalog: http://catalog.middlesex.mass.edu/content.php?catoid=15&navoid=1215</p>	<p>Student demonstrations of learning (artifacts as well as behaviors) have been collected and assessed every year since 2007. See website for assessment tools and results: https://www.middlesex.mass.edu/strategicplanning/islo.aspx</p> <p>This assessment work has indicated clear trends in some cases (see assessment of writing in 2010), but could not be considered completely valid because sample selection was self-selecting (voluntary). In 2014-15, we will put in place an assessment process to determine</p>	<p>Beginning in 2014-15, ISLO assessment will be conducted by an assessment committee, to be formed under the oversight of the General Education Committee. Students will be included on these assessment committees, as they have been included in our assessment work since 2010.</p> <p>We have been using AAC&U's VALUE rubrics as resources and/or primary assessment tools</p>	<p>As a result of our assessment of Written Communication in 2007, we implemented a "Writing Coach" professional development program that provided writing consultation to faculty teaching outside the English department. Those partnerships benefitted the Writing Coaches as well as the faculty with whom they consulted outside of the English Dept. Not only were Science faculty learning about ways in which they could increase students' accountability for good writing in their discipline, and improve their writing assignments, but English faculty teaching Composition courses were learning more about the kinds of writing that are required after students complete their Composition sequence, and began to incorporate more expository writing into their writing courses.</p>	

			<p>student development of ISLOs within General Education courses, which will provide us with the opportunity to benchmark ISLO development within Gen Ed. When combined with ISLO assessment within Freshman Seminars and at the capstone level within programs, preferably embedded within student eportfolios, we will have clear indicators of the value-added of the MCC curricular and co-curricular experiences towards student development of these essential learning outcomes.</p>	<p>since 2011. Beginning in 2014-15, MCC will adopt the use of VALUE rubrics where possible and deemed useful as our primary assessment tools for ISLO assessment.</p>	<p>As a result of our assessment of Written Communication over time to determine “value added” of the MCC writing sequence and capstone level work in the majors, it became clear to the college community that “one course does not a writer make”, leading to our General Education reform work which has resulted in the intentional integration and assessment of student development of the ISLOs in all General Education courses.</p> <p>As a result of our very “messy” efforts to assess Personal and Professional Development in 2008, and our General Education reform work, we are implementing the use of student eportfolios as a means for students to capture and reflect upon their academic, personal and professional development over time. These eportfolios will provide us qualitative as well as quantitative assessment data, and will allow us to look at student development longitudinally.</p>	
<p>For general education:</p>	<p>Yes (our General Education student learning outcomes are our institutional</p>	<p>See above (Institutional level)</p>	<p>See above (Institutional level)</p>	<p>See above (Institutional level)</p>	<p>See above (Institutional level)</p>	<p>See above (Institutional level)</p> <p>Beginning in 2014-15, our assessment of General Education will be considered a</p>

	student learning outcomes – ISLOs)					component but not the totality of our Institutional level ISLO assessment.
PROGRAMS						
Alcohol/Substance Abuse Counseling Program	yes	In Admissions Packet and in MCC catalogue URL: http://catalog.middlesex.mass.edu/preview_program.php?poid=1754&catiod=15	Required 300 hour fieldwork course (Supervised Field Placement I and II) requires portfolio/journals/assignments which confirm completion of learning outcomes. A state licensing exam for the CADAC certification and LADC license from DPH.	Faculty member in the Fieldwork courses and the AACC Program coordinator	<u>Changes in the Placement site opportunities:</u> Program review in 2/2011 identified the need for additional placement sites for fieldwork and that has been accomplished in the past 2 years. Rational was that diversity in placements with a broader geographic area would increase student choices and possible employment opportunities. Also an increased emphasis in the curriculum on current treatment modalities for clients with substance abuse and mental illnesses. This change was recommended by the AACC Advisory Board due to changes in patient profiles and treatment needs	Completed in FEB 2011

Human Services		MCC Catalogue http://catalog.middlesex.mass.edu/preview-program.php?poid=1810&catiod=15	Capstone course (Supervised Field Placement) requires portfolio/journals/assignments which incorporate learning outcomes	Currently, faculty member for that particular course. However, as part of our currently ongoing program review, we have identified the need for collaboration among our program faculty for all program-level outcomes assessment work. We have identified a program outcome that will be assessed collaboratively in 2016.	Assessment Process for determining students' cumulative achievement of program outcomes and skill standards. Program review is in process and has identified need to assess skill standards/program outcomes as a program, rather than as individual faculty. This change will be made for our next assessment in 2016.	In process and scheduled to be completed Fall 2013
Mathematics	Yes	In the program review and on the department website https://www.middlesex.mass.edu/math/	As these are individual courses, not a program, outcome achievement is determined by final grades, exams and projects.	The department as a whole discusses the various data and makes determinations as to changes.	Precalculus sequence: The precalculus courses have been changed for both the Business and the STEM programs. Each group takes a single specialized Precalculus along with a second semester of more appropriate material. Business students take MAT 177, Statistics and STEM students take a course in Trigonometry. Ramp-Up: In order improve the completion rate in the developmental sequence, a new	2007-2009

					<p>program was designed. All developmental material has been combined into a 12 module sequence. Students begin at either Module 1 (arithmetic) or Module 5 (basic algebra) and move through the material as quickly as they can. They have the potential to complete the equivalent of what was a 3 course sequence in one or two semesters. This allows them to reach a college level course more quickly.</p>	
Medical Assisting	Yes	<ul style="list-style-type: none"> Catalog http://catalog.middlesex.mass.edu/preview_program.php?catoid=15&pooid=1819&returnto=1237 	<ul style="list-style-type: none"> Licensure examination Annual Review of PSLOs/ISLOs 	Annually by accreditation organization, advisory board, department chair and faculty	<p>In January 2012 a review for the Medical Assisting licensure examination was implemented to better ensure students are well prepared to take the national exam after examining our pass rate scores (50%, below the 70% required by program's accrediting agency). Pass rates have begun to climb since this review was implemented.</p> <p>In September 2013 the program added a course in Electronic Medical Records to better prepare students for the healthcare job market. We added this course as a result of federal legislation mandating that patients have an electronic health record for continuity of care.</p> <p>In March 2014 an evening option for the Medical Assisting program will be offered. The evening program will open the doors for all those students who</p>	2007

					can't complete the program during the day. This option was added in response to the changing job market in which Medical Assisting has become one of the fastest-growing careers in the nation, according to the U.S. Bureau of Labor Statistics. Discussions with our local career centers indicated high numbers of local position vacancies.	
Music	Yes	<p>Fine & Performing Arts Concentration– Music Option, A.A. http://catalog.middlesex.mass.edu/preview_program.php?catoid=15&poid=1800&returnto=1237</p> <p>Performing Arts Concentration-Music Option, AA http://catalog.middlesex.mass.edu/preview_program.php?catoid=15&poid=1832&returnto=1237</p>	Student performances d juries; acceptance into university music programs, which require passing a performance audition and a written music theory exam	MCC music faculty evaluate the student performances each semester; the university jury determines who passes the entrance auditions and theory exams	<p><u>Establishment of the Fine & Performing Arts and Performing Arts Music Options</u> Due to the increasing number of students wishing to concentrate in Music and to transfer to four year music programs; These were established after the 2003-04 Performing Arts Program review.</p> <p><u>Establishment of Music as a separate department</u> The Music area grew enormously after 2003, both in the number of students and the variety of courses. It is also easier to articulate agreements with university 4 year programs as a separate department. Will consider all recommendations.	2001
Psychology Concentration (LAS)	Yes	http://catalog.middlesex.mass.edu/preview_program.php?catoid=15&poid=1837&returnto=1237	As a result of our current program review, we have begun a process of fulltime faculty members assessing student artifacts representing student achievement of one or more of our Program SLOs. Although we do not have a formal capstone course, we have recently increased the math requirements for PSY 138 (Research Methods) to a level that will ensure that students complete this course near the end of their time in the program. As such, this course can serve as a “benchmark” course and success in this course would be an indicator of student competency in four out of seven program student learning outcomes. Success in the other three outcomes is best indicated by student success in other second-tier courses.	This evidence is interpreted by full-time faculty annually as an element of a curriculum enhancement project.	Changes to date have been based on informal assessment work, and have ranged from adding or adjusting assignments for greater clarity to requesting student access to more comprehensive research databases in the field. Future changes will be based upon assessment work and other action items that emerge from our program review.	2013 (in progress)

Radiologic Technology	Yes	Catalog Rad Tech Student handbook Rad Tech web site https://www.middlesex.mass.edu/RadiologicTechnology/	Certification examination Bi annual review of ISLO's	Advisory board, Assessment committee, and program faculty	<p>Strengthened Student Development of Quantitative Literacy skills. In spring 2012, the students did not meet the benchmark for QL, generated changes in curriculum that provided increased opportunity for students to develop these skills.</p> <p>Changes to improve annual program retention rate, including increased opportunities for students to practice applying course content in advance of their work in clinical settings, and changes to our advising process. In academic year 13, the program retention benchmark was not reached. Additionally, The advisory board has critiqued the admission requirements and offered input on how we can make changes to improve retention.</p> <p>Strategies to improve certification exam 1st time pass rate, based upon national best practice have been implemented Scores in physics and the quality control continue to be our lowest scores on our certification exam .</p>	2008
Reading	Yes	On individual syllabi; Catalog http://catalog.middlesex.mass.edu/reading https://www.middlesex.mass.edu/programreview/hrc.aspx			<p>To improve retention rates -In spring and summer 2012, we examined data and evidence from other institutions across the country to improve college retention rates in developmental courses. We developed a minigrant which accelerated the path to</p>	3/12

					<p>college level courses. These new pilot courses collapse our current developmental reading program and combine reading and writing courses into a new, contextualized 6 credit one semester course.</p> <p><u>To improve college textbook reading comprehension</u> -Many students at MCC have difficulty with reading comprehension, particularly with college level textbooks. The Reading Apprenticeship Program developed by West Ed. offers successful techniques to educators to improve reading proficiency. We have expanded our Reading Apprenticeship Program to promote the use of these successful techniques in reading and writing in content area courses. MCC reading faculty has run training sessions for college and high school educators.</p>	
Science	Yes	<p>1) MCC catalog 2) Science Program Review https://www.middlesex.mass.edu/programreview/downloads/sci08.pdf</p>	<p>Faculty assess student work through lab reports, homework assignments, graphing exercises and exams. Additionally, some students are enrolled in the second course of a two part course sequence (i.e. A&P I and A&P II). Enrollment in the second sequence course indicates that the student successfully completed the first course</p>	<p>Faculty assess student work through lab reports, homework assignments, graphic exercises and exams. As a department, we do not have a formal method of interpreting the evidence.</p>	<p><u>Restructuring of the Introduction to Biology course</u> Based upon Title III grant guidelines for increased student success in gateway courses.</p> <p><u>Offering STEM research courses</u> The Dept. feels that research is an important part of science education and we needed more opportunities for all students, not just those who get REU's. MCC STEM research courses give students an exposure to research which</p>	2007

			with a "C" or better.	Instructors within the same course often have conversations regarding specific topics for a particular course. Full-time faculty serve as unofficial mentors to new adjuncts when asked. If a situation arises that needs further discussion, then the topic is discussed at department meetings.	<p>may be a much desired skill for employment opportunities and transfer to BS programs. Additionally, students continuing on to MS and PhD programs at other colleges/universities will be performing research projects as a major part of their degree requirements.</p> <p><u>Prerequisite changes in several courses</u> Prior to the changes students were having difficulty comprehending textbook reading, grasping mathematical concepts in science courses, and were weak in basic concepts necessary for higher level courses. Prerequisite changes were implemented to ensure student preparedness for courses.</p> <p><u>Offering more on-line and hybrid courses</u> The Dept. felt there was a need for on-line courses so that students have more options to take courses that fit their schedules. Many science courses are prerequisites to enter Health Career programs. Students often cannot access the campus due to employment or family obligations, and scheduling science courses is difficult because the majority of courses have a 2 or 3 hour lab component once a week in addition to the lecture class. Web based courses alleviates the scheduling conflicts and gives students greater access to these courses.</p>

					<p><u>New course offering - Introduction to Geology</u> ENV 141 was created in part as a course that would have good transfer capabilities to other 4 year colleges. Additionally, the course was categorized under ENV to avoid misinterpreting this course as a Geography course (which it is not).</p> <p><u>Changes for Life Science Transfer concentration</u> due to revised articulation agreement with UML.</p> <p><u>Change in Computer Science requirement for Life Science and Physical Science concentration majors.</u> Students in these concentration majors will be able to understand how computer program will be written. The rationale is that today's students should have programming skills especially if they go into bioinformatics, so we now offer computer science courses which teach programming as an additional option that counts towards their degrees.</p>	
Studio Art	Yes	Catalog http://catalog.middlesex.mass.edu/	-Portfolio Reviews -Juried Student Show -Annual Review of PSLOs/ISLOs	Annually by Art faculty	<u>More opportunities for Personal and Professional Development</u> The institution of a juried student show in May 2011 has helped develop personal and professional skills. Students fill out a prospectus, mat and mount work for display, and submit pieces that are	2008

					<p>judged by a panel of art faculty. Exhibiting students and their friends and family attend an opening reception and awards ceremony.</p> <p><u>Transfer Portfolio Workshops</u> After reviewing student surveys in 2010 that indicated students' limited knowledge of the portfolio requirements for transfer to a four-year art college, faculty developed a festive workshop (including pizza) to inform students of the process. Successful students transfer students presented their portfolios and a CD with key information was given to each participant.</p> <p><u>Upgrading Art Advising</u> All art students are assigned an art advisor, who helps them to become aware of career directions and guide them in the transfer process throughout the program.</p>
