

DUAL MAJOR FORM

DUAL MAJOR: Students may earn additional Associate Degrees or Certificates either by concurrent completion of the requirements of the credential or by subsequent study after the first degree is received.

To receive a second associate degree from Middlesex Community College, after completion of the initial degree program, students must complete a minimum of 15 additional semester hours of credit at the college beyond the credits used to satisfy the requirements of the first associate degree. Credit by examination (i.e., CLEP, AP, DSST), credit for prior learning, and transfer credit does not count in the required 15 additional semester hours. The Liberal Studies program may NOT be the second degree under this option. In addition to the minimum 15 semester hour requirement, students must meet all specific degree requirements of the major program of study for which the second degree is sought.

To receive an associate degree and certificate from Middlesex Community College, students must complete courses that meet the requirements of both. In many instances, certificate courses can automatically be applied to associate degrees.

In order for MCC to process your dual major request, this form must be signed, completed, and returned to one of the Student Information Centers.
